Assignments

I am an International student, from India, currently pursuing Bachelor of Software Engineering in Deakin!

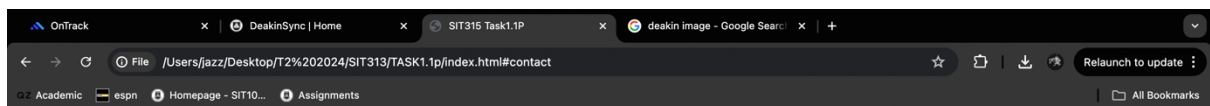

Here's what I have done so far:

Experienced in JavaScript, Java, CSS, and MySQL with robust foundational knowledge acquired through professional projects and self-learning. Enthusiastic about front-end development and continuously seeking to implement innovative solutions in dynamic environments.

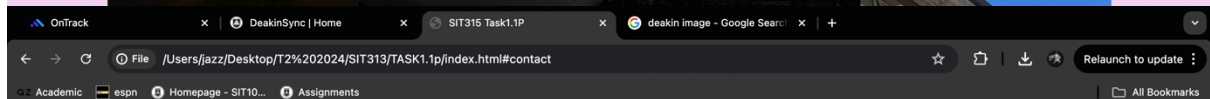

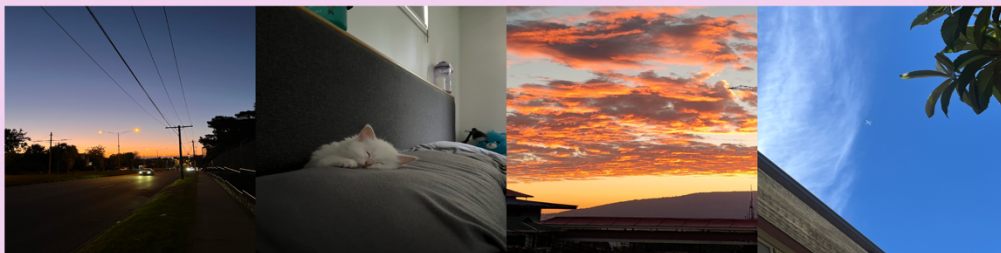

Gained expertise in project management, data analysis, debugging, and software optimization through extensive professional experiences. Developed strong leadership abilities, effective time management, collaboration in diverse teams, and a commitment to lifelong learning. Proficient in various programming languages and modern development frameworks.

Gained expertise in project management, data analysis, debugging, and software optimization through extensive professional experiences. Developed strong leadership abilities, effective time management, collaboration in diverse teams, and a commitment to lifelong learning. Proficient in various programming languages and modern development frameworks.
